

Skill'IT – Online Learning Platform

Design Explanation Document – CodeAlpha UI/UX Internship (Task 4)

1. Project Overview

Skill'IT is a mobile learning platform designed to help users discover courses, enroll in programs, track learning progress, and manage their educational journey. The application was designed with a focus on simplicity, accessibility, and a clean user experience.

2. Objective

- Design a modern and user-friendly online learning platform.
- Create a smooth user journey from onboarding to course completion.
- Apply UI/UX design principles such as visual hierarchy, consistency, and usability.
- Develop an interactive prototype using Figma.

3. Screens Included

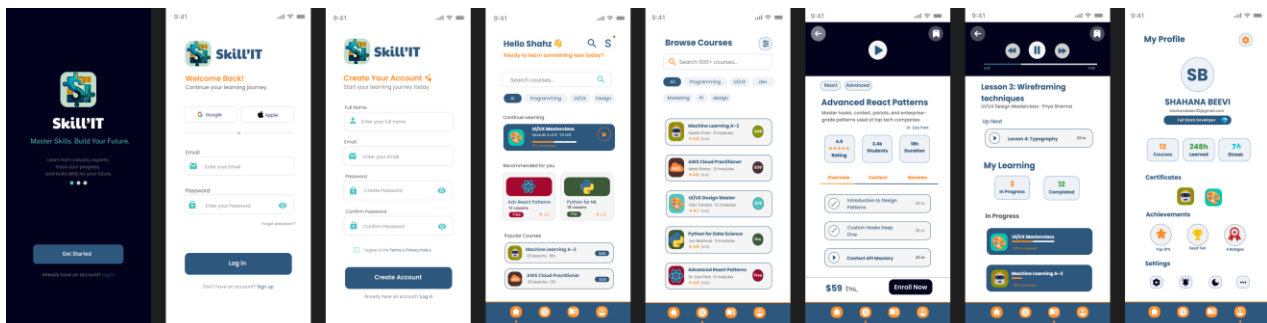

The prototype consists of eight screens:

1. Welcome Screen
2. Login Screen
3. Sign Up Screen
4. Home Screen
5. Browse Courses Screen
6. Course Details Screen
7. My Learning Screen
8. Profile Screen

4. User Flow

Welcome → Login / Sign Up → Home → Browse Courses → Course Details → My Learning → Profile

The bottom navigation bar allows users to easily switch between major sections of the application.

5. Design System

Color Palette

- Primary Navy (#2D577C) – Buttons, navigation, and important actions.
- Teal (#4EC5C1) – Icons, highlights, and interactive elements.
- Orange (#F28C38) – Ratings, badges, and achievements.
- Background (#F8F9FC) – Clean and minimal interface background.
- Secondary Text (#7A7A7A) – Supporting information and descriptions.

Typography

- Bold headings for important information.
- Clean and readable text styles for content and labels.

Components

- Rounded buttons and cards for a friendly appearance.
- Consistent course cards and navigation patterns.
- Reusable icons and visual elements throughout the application.

6. Key Features

- User Authentication (Login & Sign Up)
- Course Discovery and Search
- Course Enrollment
- Learning Progress Tracking
- Video Learning Interface
- User Profile and Achievements

7. Tools Used

- Figma – Wireframing, UI Design, and Prototyping

8. Prototype Link

The fully clickable Figma prototype can be viewed here:

9. Conclusion

Skill'IT is a complete mobile learning application prototype designed to provide an intuitive and engaging learning experience. The project demonstrates the complete UI/UX design process from wireframing to high-fidelity design and interactive prototyping, fulfilling the requirements of CodeAlpha Task 4.
